## About me

I'm a creative Software Engineer with a passion to develop applications that serves day to day life. Enthusiastically seeking full-time position developing web, standard and mobile applications.

## Employment history

SEP 2018	<b>Senior Software Engineer, Freshworks, Chennai</b> Working on a telephony system(Freshcaller). Developed several features with zero deadline breach.  Developed and maintaining the official website of Freshcaller.  Mentored junior developers and Reviewed colleague's code by paying attention to the minute details of it.  Managed and delivered the highest number of features in short time frames.  Reduced 100% of cost by creating an internal application using springboot and reactjs by avoiding the integration with survey monkey.
MAY 2017	<b>Software Engineer, HID R&amp;D Center, Chennai</b> Developed Credential Management application using HapiJs, Angular 1.5 and Angular 5.  Contributed towards FIFA 2017 world cup, mobile credential team.  Owned an entire module in HID mobile app credential delivery.  Introduced several tools to reduce the development time.
AUG 2013	<b>Application Consultant, Hewlett Packard,</b> Developed an internal ticketing tool using AngularJs 1.5 and Spring framework.  Provided 24/7 support for Global Treasury System.

## Achievements

Awarded Spotlight award 3 times for accomplishing critical tasks in Freshworks.

Awarded Best team player award in HID Global.

## Personal Projects

Developed and tested a scalable and robust website for tuition management using Nodejs, Angular 6 and MongoDb, hosted in heroku. <http://balajituitioncenter.com/>

Developing a SaaS product to maintain the entire operations of an institution using Sprinboot, Reactjs with Typescript, RabbitMq messaging service, MongoDB and hosted in AWS EC2.

Created a chat application for the team to anonymously assign tasks using Springboot, MongoDB, ReactJs and Webscokets. <https://secret-taiga-37718.herokuapp.com/>

Developed a website to learn and take test for apttitude. <https://stark-anchorage-86169.herokuapp.com/>
